UFUQ

VISUAL IDENTITY

& PRODUCT UI SYSTEM

A modern corporate identity for a connected ERP platform.

Clear direction. Better work.

People, operations, finance, inventory and reporting - one visual language.

BRAND STRATEGY / LOGO DIRECTION

COLOR / TYPOGRAPHY / PRODUCT UI

Brand foundation

The decisions that should guide every expression of UFUQ across mobile, web and future product surfaces.

POSITIONING

UFUQ brings people, processes, finance, inventory and workplace performance together in one clear ERP experience.

TRUSTWORTHY

Reliable, structured, secure.

FORWARD-LOOKING

Growth, direction, progress.

PEOPLE-FIRST

Approachable and human.

OPERATIONALLY CLEAR

One system across every workflow.

Brand promise

Less admin friction. More visibility. Better-informed teams. UFUQ makes everyday work easier to understand and manage.

Personality

- Confident, never intimidating
- Intelligent, never complicated
- Organized, never cold
- Clear, never overloaded

VOICE & MESSAGING

Recommended English tagline: "Clear direction. Better work." Use short, confident language. Lead with outcomes and avoid jargon.

Creative guardrails

DO

Prioritize hierarchy, legibility, useful data, calm surfaces and clear states.

AVOID

Decorative gradients everywhere, mixed icon styles, competing status colors and unnecessary visual noise.

REFINE, DO NOT REINVENT

Refine, do not reinvent

Keep the mountain / horizon idea and make it simpler, more distinctive and more scalable.

PROPOSED REFINEMENT DIRECTION

UFUQ

HORIZON / CLARITY / PROGRESS

01 **Simplify the symbol**

Use 2-3 deliberate strokes; remove details that vanish at small sizes.

02 **Balance stroke weights**

Make peaks feel intentional, with consistent line thickness and spacing.

03 **Build flexible lockups**

Primary, app icon, horizontal and monochrome variants.

04 **Keep accent intentional**

Use muted amber only as a highlight, not a second dominant UI color.

Required variants

UFUQ

PRIMARY

Arabic + Latin

APP ICON

A CALM, CONFIDENT PALETTE

A calm, confident palette

Indigo gives UFUQ its signature. Navy anchors the brand; neutrals keep complex ERP information readable.

USAGE RULE OF THUMB

Approx. 70% neutrals / 20% brand colors / 10% supporting colors. Use semantic colors consistently and never rely on color alone.

DESIGNED FOR ARABIC FIRST

Designed for Arabic first

A readable Arabic experience is a core feature of the product, not a translation layer.

ARABIC TYPEFACE / ALEXANDRIA

LATIN TYPEFACE / INTER

COMPONENT PRINCIPLE

Every component needs documented variants: default, hover, focus, active, disabled, loading, empty, success and error wherever applicable.

MOBILE + WEB, ONE SYSTEM

Mobile + web, one system

Keep the brand consistent while adapting information density to each platform and task.

MOBILE / EMPLOYEE VIEW

Mobile priorities

- **At a glance**

  Attendance, tasks, leave balances and salary status.

- **Fast actions**

  Check in, request leave, complete tasks and submit requests.

- **Calm navigation**

  Short labels, consistent active state, clear bottom navigation.

- **Thumb-friendly**

  Tap targets around 44 px or larger.

WEB / ERP ADMINISTRATION VIEW

UFUQ

- **Overview**
- Employees
- Attendance
- Tasks
- Payroll
- Reports
- Inventory

EMPLOYEE	DEPARTMENT	STATUS	TASKS
Ahmed Hassan	Sales	**Present**	**8 / 10**
Mona Ali	Marketing	**On leave**	**6 / 8**
Omar Samir	Operations	**Pending**	**3 / 7**

Responsive & RTL: mobile <600px, tablet 600-1023px, desktop >=1024px. True RTL for Arabic.

From direction to production

A practical handoff for design, product and engineering teams.

01 **Brand foundation**

Positioning, identity principles, palette and typography.

02 **Design system**

Tokens, reusable components, variants, states and RTL grid.

03 **Product design**

Mobile dashboard, workflows and web admin screens.

04 **Validation & handoff**

Responsive QA, accessibility checks and implementation specs.

FINAL DELIVERABLES

- **Brand guidelines PDF**

  Principles, logo usage, colors, typography.

- **Logo package**

  SVG masters, PNG exports, icon and lockups.

- **Design system**

  Tokens, components, variants and states.

- **Mobile UI kit**

  High-fidelity screens and reusable patterns.

- **Web UI kit**

  Responsive navigation, tables, filters and charts.

- **Developer handoff**

  Specs, RTL rules, breakpoints and accessibility.

THE RECOMMENDATION

Keep the mountain concept, white surfaces and indigo signature. Reduce unnecessary shadows and gradients. Build the system around Arabic readability, consistent components, and a shared mobile / web experience.

This V2 identity supersedes the previous green/cream UI direction for future UFUQ redesign work.
